## **DETAILED ACTION**

1. Claims 1-12, 14-148, 150-155, 157-192 and 194-216 are presented.

## **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Berman on September 28, 2004.

The applicant has been amended as follows:

In the claims:

Claim 27-28, delete lines 11-12 and replace with -- wherein informational material is correlated to the location where a printed pass was printed and the time assigned; and –

Claims 213-214; line 10, change "fro" to "for".

Claims 209 and 213-14, insert "computer implemented" in between the words "A" and "method" in line 1.

## Allowable Subject Matter

- 3. As per claims 1-2, specifically independent claim 1, the prior art of record fails to teach or adequately disclose a system for managing admission to an attraction comprising:
  - a first validator (hereinafter: FV") for establishing an entitlement of a customer to access the attraction;

Art Unit: 2121

- a controller (hereinafter: "C") for generating an assigned time (hereinafter: "AT") at which the customer may access the attraction, the assigned time comprising a next available time, as determined by an algorithm performed by the system; and

- a second validator (hereinafter: "SV") for permitting the customer to access the attraction at the "AT", in combination with the other claimed features and or limitations as claimed by the claimed invention.

As per claims 3-6 and 14-16, specifically independent claim 3, the prior art of record fails to teach or adequately suggest a system for managing admission to an attraction comprising:

- a first queue (hereinafter: "FQ") by which customers may access the attraction by waiting in line;
- a second queue (hereinafter: "SQ") by which customers may access the attraction in a manner which avoids the "FQ";
- a "FV" for establishing an entitlement of a customer to access a "SQ"; and
- generating an "AT" in the future at which an entitled customer may access the attraction via the "SQ", in combination with the other claimed features and or limitations as claimed by the claimed invention.

As per claims 7-12, specifically independent claim 7, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 7 also adds a feature wherein the "FV" is arranged to validate at least one type of identifying information from the group consisting of: magnetic strip, bar code, radio-frequency, iris, fingerprint, retina, voice, thermal, finger or hand geometry, and visual identification, which further distinguishes claim 7 from the prior art or record.

As per claim 17, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 17 also adds a feature wherein a media distributor (hereinafter: "MD") is used for distributing admission media to

Art Unit: 2121

customers entitled to access the attraction, the admission media including printed material thereon and the information being generated specifically for the customer based upon an identification of the customer, which further distinguishes claim 17 from the prior art of record.

As per claim 18, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 18 also adds a feature wherein a media distributor (hereinafter: "MD") is used for distributing admission media to customers entitled to access the attraction, the admission media including printed material thereon and the information being generated to influence pedestrian traffic patterns, which further distinguishes claim 18 from the prior art of record.

As per claims 19-26, specifically independent claim 19, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 19 also adds a feature wherein an admission pass is distributed to entitled customers the admission media including printed material thereon and the information being generated to influence pedestrian traffic patterns, which further distinguishes claim 19 from the prior art of record.

As per claim 27, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 27 also adds a feature wherein a printed pass is issued, wherein information material relating to the printed pass is correlated to the location where the printed pass was printed and the time assigned, which further distinguishes claim 19 from the prior art of record.

As per claims 29 and 37-38, specifically independent claim 29, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 29 also adds a feature wherein an admission pass is generated and issued to customers entitled to access the attraction, wherein times issued are issued on a first come first serve basis, which further distinguishes claim 19 from the prior art of record.

Application/Control Number: 09/617,721

Art Unit: 2121

As per claims 30-36, specifically independent claim 30, the reasons for allowance, as set forth in claim 3 above, is equally applied herein.

As per claims 39 and 47-48, specifically independent claim 39, the reasons for allowance, as set forth in claim 3 above, is equally applied herein and it is further noted that claim 39 also sets forth the feature that media which is issued has assigned times which are based on a determination of a next available time, which further distinguishes claim 19 from the prior art of record.

As per claims 40-46, specifically independent claim 40, the reasons for allowance, as set forth above with respect to claim 3 above.

As per claims 49-148, 150-155, 157-192 and 194-208, specifically independent claims 49-50, 59-60, 69, 78-79, 89, 99, 109-110, 121-122, 133-134, 145, 152, 159, 169-170, 180-181, 192, 202, 207 and 215, the reasons for allowance, as set forth in claim 3 above, is equally applied herein.

As per claims 209-214, specifically independent claims 209 and 213-214, the prior art of record fails to teach a method of managing admission to an attraction comprising the features and or limitations as claimed by claim 3, in addition, these claims also present a feature whereby admission is denied to a customer upon the determination that the customer has an outstanding time already assigned, in combination with the other claimed features and or limitations as claimed by the claimed invention.
